HEALTH ETHICS TRUST

REQUIREMENTS

The Health Ethics Trust (HET), a division of the Council of Ethical Organizations (CEO), has offered compliance professional certification (Certified Compliance Professional: CCP) since the Trust's inception in 1995. The Trust introduced an advanced certification (Certified Compliance Executive: CCE) in 2006. The goal of the Trust's certification programs is to promote professionalism and competence throughout the healthcare compliance community.

The Trust's certification process is overseen by the Education Committee of the Council of Ethical Organizations. This is an independent, voluntary committee of experienced compliance professionals from around the country. Members of this committee oversee changes to the HET certification process as well as reviewing applications for HET certifications and renewals.

In 2002, the Education Committee and HET implemented a continuing education requirement for maintaining certification. This means that all HET CCPs and CCEs who wish to maintain their certification must meet the continuing education requirements over a defined period of time. (The only exception is for individuals who retire while currently certified). This stipulation was introduced because the Trust believes that the field of ethics and compliance is evolving rapidly and that continuing education is important to meet the growing challenges in the field of compliance/ethics.

Compliance professionals who wish to maintain their certification must complete certain requirements and obtain 40 points in specified sections within 3 years of their initial certification or last re-certification.

Applicants must obtain 24 of the 40 points through work experience **AND** courses offered by the Council and/or HET. Additional points must be earned in these or other categories. Use this application form to provide the information needed to verify your satisfaction of these requirements. (See the specific criteria within each section for detailed information about each requirement.)

Part I - Compliance Work Experience 8 POINTS (Minimum)

Part II - Continuing Education – CEO/HET 16 POINTS (Minimum)

Part III - Additional Points 16 POINTS (Minimum)

There is an application fee of \$150.00 to process each re-certification application. This fee is reduced to \$75 for employees of organizations that are members of the Health Ethics Trust and/or Council of Ethical Organizations.

Part I:

COMPLIANCE WORK EXPERIENCE

8 POINTS (Minimum)

Continuing or ongoing work experience in a position where compliance and/or ethics is a primary responsibility

Criteria:

- Submission of a written summary (of sufficient length) of the applicant's scope of work to demonstrate continuing responsibility for compliance and/or ethics program development and/or management since last certification.
- Submission of related work product to which the applicant has made a substantial contribution (e.g., policies and procedures, code of conduct, training materials, other supporting documents). These sample work products should demonstrate the applicant's ability to do the work of compliance and/or ethics with competence and distinction.
- Submission of a resume detailing the applicant's background and compliance/ethics relevant experience.

8 Points will be rewarded if the criteria is met
